Blas C. Lomibao

Seeking opportunities to get involved in very prestigious Cyber Security/Data Analytics projects and in which I could fully utilize and improve my talents and skills.

Profile

1) More than 16 years of industry experience with 10+ years of exceptional experience in SAP Abap Development, 5 years of Visual Basic Software Development experience, **2 years of Python Software Development (includes Data Science Projects)** with 8 years of ABAP/4(on shore and off shore) International Consulting experience. Extensive training (with hands on hacking at my homelab) in Cyber Security related technologies

2) Strong programming and problem analysis/solving skills, proven under high-pressure environments.

3) Well developed interpersonal and communication skills, having dealt with diverse professionals, clients & team members.

4) Highly self-motivated and able to set effective priorities to achieve immediate & long-term goals and meet project & operational deadlines.

5) Capable of always delivering high quality performance tuned product (code bundle/business analysis) before projected deadlines & budgeted time.

Summary of Skills

Skill	Rating
Python	◉◉◉◉○
Cyber Security	◉◉◉◉○
Sap Abap	◉◉◉◉○
VB6/MS Access/SQL Server	◉◉◉◉○
PHP/HTML/JavaScript/CSS/MySQl/Bootstrap	◉◉◉◉◉
Arduino Electronic Device Development	◉◉◉◉○

Smits

Trainings Attended

Machine Learning A-Z™: Hands-On Python & R In Data Science - Udemy
Machine Learning, Data Science and Deep Learning with Python - Udemy
Hands-on Machine Learning for Stock Trading [Python] – Udemy
Learn Programming in Python! - Data Visualization in Python - Udemy
Statistics & Mathematics for Data Science & Data Analytics - Udemy
Data Analysis Project in Python – Udemy
Simple Blogging Analytics Dashboard in Python - Udemy
Security Operations Center - SOC w/ Splunk and FortiSIEM - Udemy
Start Kali Linux, Ethical Hacking and Penetration Testing! - Udemy
Python OOP : Object Oriented Programming in Python – Udemy
Wireshark Crash Course For Ethical Hackers - Udemy
The Web Developer Bootcamp 2022 - Udemy
BC490 - ABAP Performance Tuning – Sapient College, Philippines

Trainings Provided

General Knowledge Training on SAP R/3 Authorization Concepts, BAPI and IDOC/EDI/ALE – ASPEN, Malaysia – Feb, 2004
IDOC/EDI/ALE – Globe Telecom – March, 2003
BAPI – Globe Telecom – March, 2003
On-the-Job Training on IDOC/EDI – Globe Telecom – Sept, 2003 to November, 2003
Idoc/EDI/ALE – T-Systems Phils., Inc – August, 2003
BDC Programming – T-Systems Phils., Inc – Dec, 2002

Employment History Details

1) Freelancer – Jan, 2020 to present(Python Developer)
2) Indra – May, 2018 to Jan, 2019(Sap Abap)
3) Trade Dynamics – Dec, 2014 to April, 2015(Python Machine Learning OpenCV Freelancer)
4) Magnus – November, 2005 to Sept, 2005(Sap Abap)
5) T-Systems – March, 2001 to Jan, 2003(Sap Abap)
6) Smits– 2013 – 2015(Sap Abap)
7) Vb6 Software Dev – 1996 to 2001(Freelancer)

Typical Summary of Tasks

- Interacted with the users to determine the individual device/report/new functionality requirements.
- Documented and verified device/report/new functionality requirements with the users.
- Used various tools to research the data required to meet the device/report/new functionality specifications.
- Provided trainings to fellow developers/clients
- Participated in evaluation and performance of subordinates(Accenture)
- Participated in pre-sales activities(T-Systems)
- Provided estimates and timelines of assign development tasks
- Participated in user acceptance activites

Python Skills summary

- Used Git/Github for version control
- Back end development using Django
- Web scraping using selenium and snscrape
- Developed machine learning models using tensorflow/keras, Scikitlearn and Nltk
- Developed electronic devices using raspberry pi and arduino with opencv for face detection
- Pls refer to my blog and github page for other information about my python skills and Data Science related projects
- I self studied docker, API development, and AWS Lambda
